Enhancing Safety, Vitality & Longevity at Home

**Introducing-  
Surface Shield™ Antimicrobial fan-light**

Item: **HH-AR110LKVV**

Features

- Powered by Vital Vio®'s proprietary 400-420 nanometer LED light, the SurfaceShield™ fan/light is clinically proven to prevent the growth and spread of bacteria, fungi, yeast, mold, and mildew on bath surfaces.
- The eco-friendly, anti-microbial light employed by SurfaceShield™, unlike UV disinfection, is not harmful to humans, plants and animals. It targets porphyrin molecules found only within the pathogens (bacteria) with no adverse effect upon DNA. More information regarding the efficacy of the SurfaceShield™ 405 nm antimicrobial light is available upon request.
- The efficient 110 CFM ventilation also acts to remove moisture thereby reducing the risk of mold or mildew in most full baths
- Retrofit installations can be done entirely from the room-side – no attic access required. This means a faster, easier installation
- EzDuct™ connector can be installed from the room side, with no attic access required
- TrueSeal™ Damper technology reduces air leakage up to 50%
- SnapFit Flange Kit offers flexible installation for new construction or retrofit upgrades
- Foldable mounting ears allow for easy installation in both new construction and room-side replacement applications
- Powerful enough for rooms up to 100 sq. ft.
- Brighter white grilles blend in to match most common ceiling paint
- Corrosion resistant galvanized steel housing stands up to moisture
- Permanently lubricated AC motor engineered for continuous operation

*Products that enhance safety, vitality, & longevity at home.*

SurfaceShield™ technology combined with Broan's powerful ventilation offers effective protection against bacteria, mold, and fungi growth in your bathroom or other humidity prone environments. Offering super-quiet sound rating of 1.0 sone, the Broan® SurfaceShield™ 110 CFM Exhaust Bath Fan generates powerful air circulation with minimal background noise. There are two lighting modes in the SurfaceShield™ LED light, an everyday white light perfect for task lighting and the SurfaceShield™ continuous antimicrobial mode. Broan® Roomside Series fans offer an EzDuct™ connector for hassle-free room-side installation with no attic access needed. With the addition of the EzDuct™ connector, other new additions have been added including foldable mounting ears, a new damper and housing technology that improves airtightness like never before. This bath fan includes soft white LED lighting for energy savings and a grille that compliments any decor.
