### Specifications

Wall to Floor Safety Bar with outrigger and snap on / twist-lock concealed flanges.

Manufactured by ELCOMA from 18 gauge, type 304 stainless steel, satin finished, tubing. 14 gauge stainless steel mounting flanges, heliarc welded to the tube to form a single structural unit.

ELCOMA grab bars are designed, built, and tested to withstand 250lbs. (113kgs) of load when properly installed.\* This exceeds HUD, FHA, VA, VA, ADA, ANSI and other federal, provincial, and local codes. \*Grab Bars can only be as strong as what they are mounted to. It is imperative when installing any safety product to consult with a qualified contractor to insure you have sufficient backing.

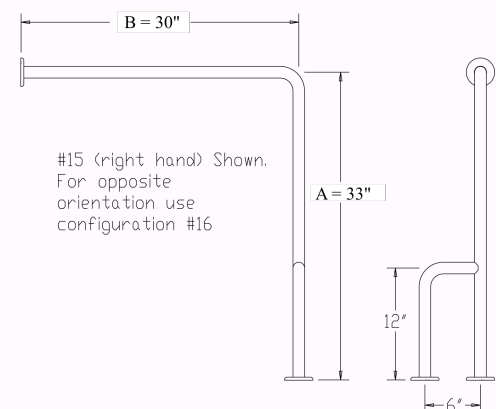

*Configuration #15 (right hand) shown*
